

B2C BOOKING PLATFORM

Reach Out to the Millions of Consumers, Showcase Your Destination with an Enhanced Online Booking Platform

etosDMC24

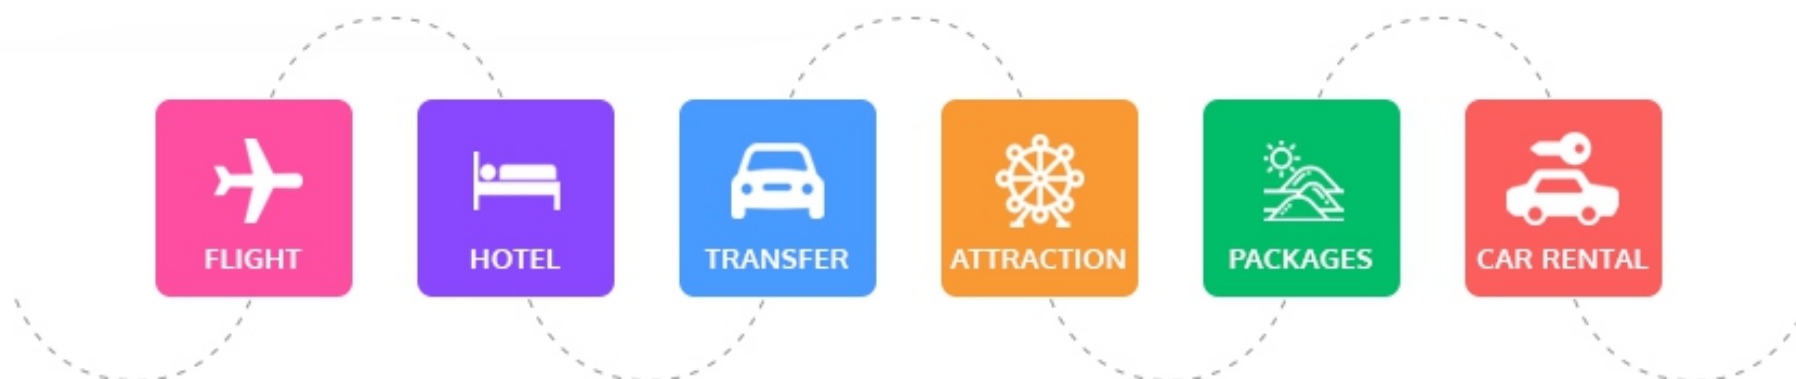

Consumer Centric B2C Booking Platform for Your Destination to Sell Services and Packages

Destination management companies or inbound tour operators can have an edge by attracting direct consumer bookings by providing a seamless booking experience and showcasing their destination details with a user-friendly online B2C booking and CMS website.

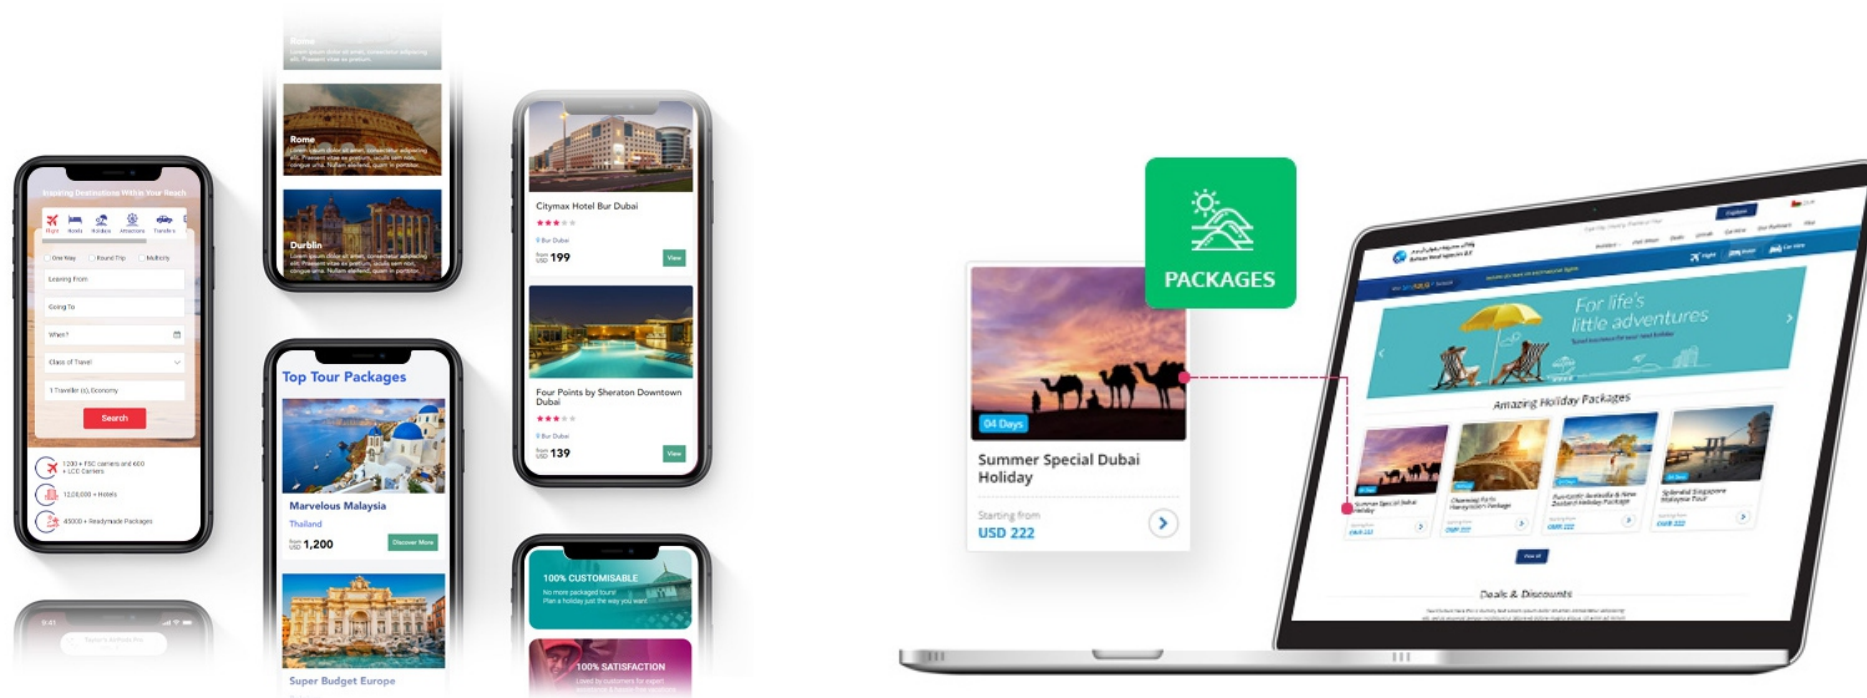

ETOS **DMC24** B2C booking platform allows inbound tour operators to create an impactful presence online with an SEO friendly website and an option to provide detailed content of their destination. The booking platform with the destination information encourages and develops trust to the consumers to booking or enquiry about direct services or destination packages.

ETOS **DMC24** B2C integrates with third party inventory suppliers from bed banks, transfers, activities and sightseeing and has the capabilities for using DMC's own inventory and products. The solution also has a capability to integrate with GDS, LCC and 3rd party flight consolidators.
